

Hinged Screen Door

Custom-sized Single

How to Measure

From outside of house looking in

Step 1

Width: measure opening width, inside jamb to inside jamb at three places (top, middle & bottom).
Use the largest overall width as your measurement width.

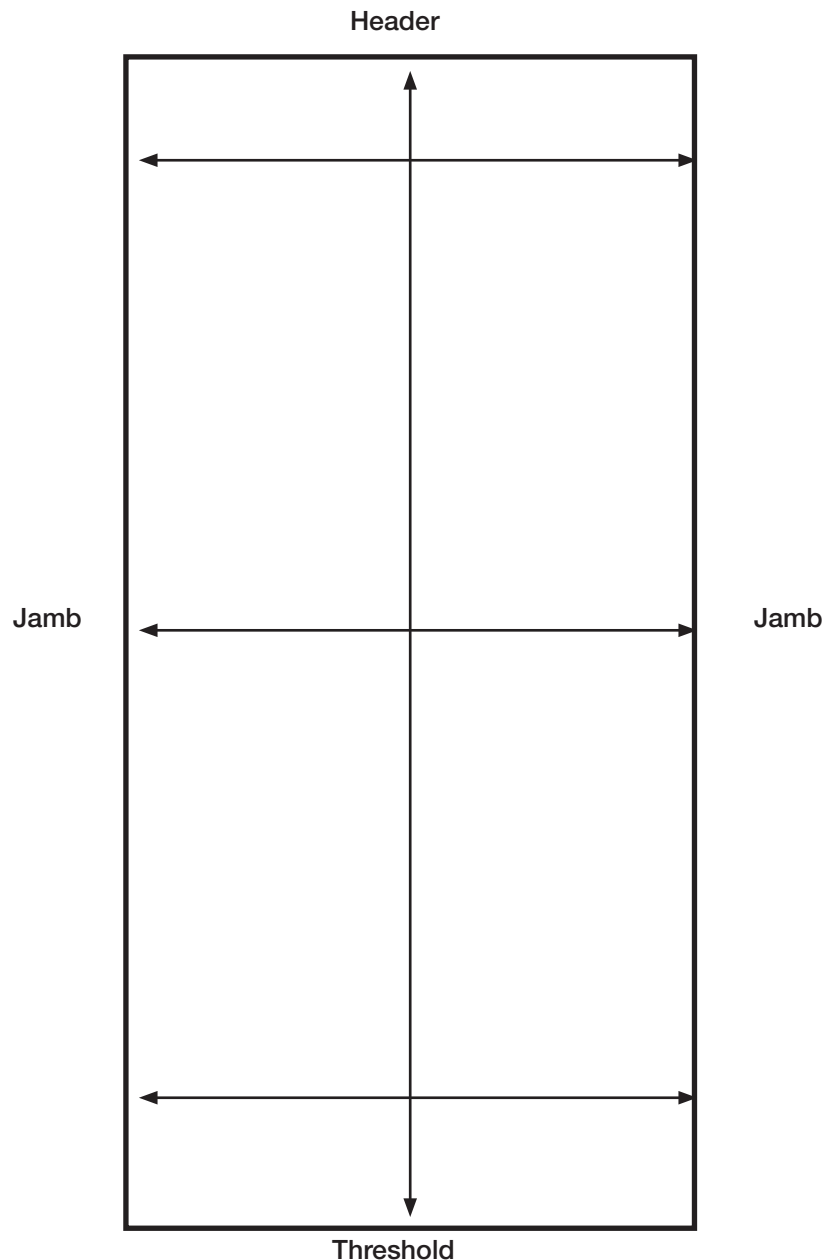

Step 2

Height: measure opening height from threshold to header (inside to inside).

Step 3

Measure width _____ - 3/4" = _____ net size

Measure height _____ - 3/4" = _____ net size
