

# Hinged Screen Door

## Custom-sized Double

## How to Measure

From outside of house looking in

### Step 1

Width: measure opening width, inside jamb to inside jamb at three places (top, middle & bottom).  
Use the largest overall width as your measurement width.

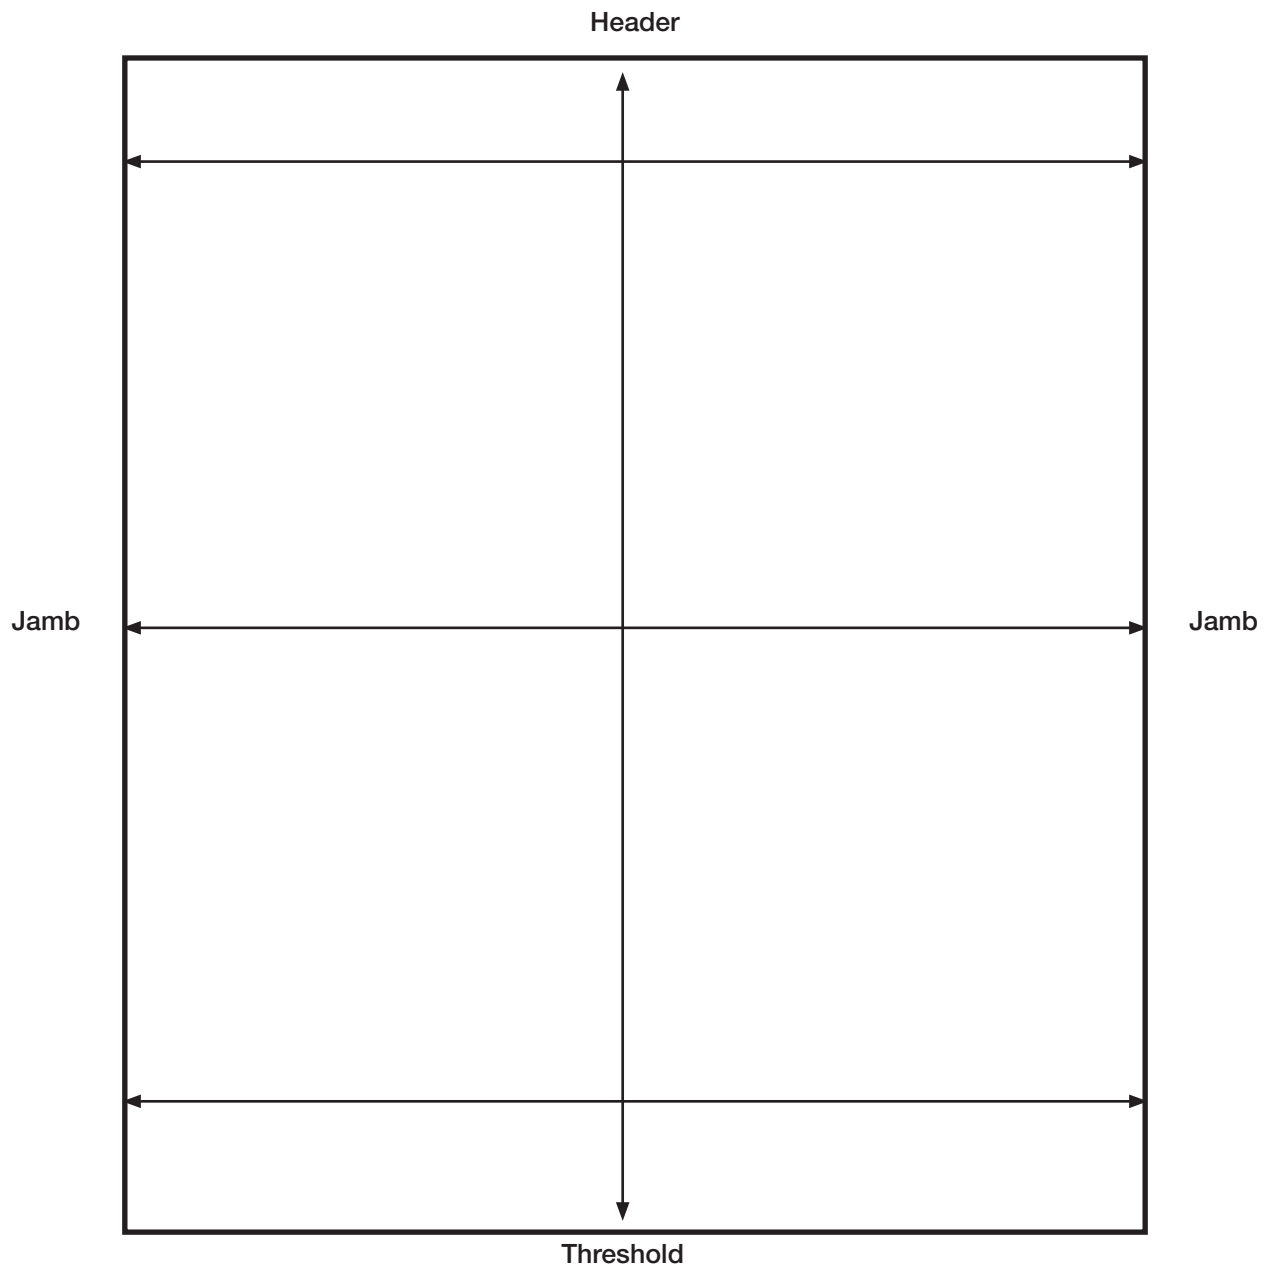

### Step 2

Height: measure opening height from threshold to header (inside to inside).

### Step 3

Measure width \_\_\_\_\_  $\div 2 =$  \_\_\_\_\_  $- 1" =$  \_\_\_\_\_ net size ea.

Measure height \_\_\_\_\_  $- 3/4" =$  \_\_\_\_\_ net size
